ABOUT ME

It is my ambition to use the medium of video to connect with people and tell stories. In a world where video is so accessible, crafting impactful images and putting them together is a wonderful way to inform, educate, capture a moment, tell a story or raise awareness. I have worked in video for over 10 years and whether it's a podcast, an event or a documentary, I love using my skills to create, capture and share these moments and stories.
